

Shamanic Dreaming Aug 9-11th in the Swiss Alps

Welcome to uplift your spirit and merge with divine co-creation!

Shaman dances between worlds of energy and matter since all elements of life have a spiritual aspect and a material one. In this conscious dance all manner of miracles and manifestations are possible.

Welcome to learn the great skills and tools of the visionary! What do you wish to create now? What would you like more of? What is important to your soul?

Through shamanic teachings, ceremonies, and meditations you heal and develop your visionary eyes to consciously dream the world.

You will learn to work with your intention as a source and navigate the energetic sphere of your dreams through the mythical dimension of life.

We practice symbolic vision and harmonize language as a creative principle to create from vision to manifestation.

Why is this class important? Dreams and visions are energetic forms which follows thoughts, feelings, and beliefs around whatever reality you hold true. This class weaves consciousness and visionary skills together for clarity on what you really wish to give your attention to.

Who is this class for? It is for you who want to develop spiritually and experience more magic in your life. You can be new to shamanic practices or being an advanced student, teachings and ceremonies meet you where you are in life now.

What do you learn?

- * Different types of seeing the world.
- * A mythic creative process from idea to manifestation.
- * Creative visualization.
- * Communication with your inner guidance.
- * Experience the art of silence as a source of power.
- * Shamanic journeying and guided meditations.

Welcome to an exciting shamanic class!

Teachings will be in English with translation to French.

Words from your Teacher

I have a great dream and a soul mission to contribute to a more conscious and peaceful world, a world where our spiritual and physical dimension go hand in hand and in balance with the wisdom of nature.

That's why I work with spiritual development and education in shamanic energy medicine that I know makes an amazing difference personally and globally.

I welcome you to this beautiful weekend in the topic of Shamanic dreaming. What I love about this class is that it gives practical tips on how to work in energy with creative visualization and knowledge on how to bring visions into manifestation. Teachings you can continue to use for your dreams of life!

As important as your visionary skills, is your loving roots and divine purpose on Mother Earth. Again, welcome to shamanic teachings and ceremonies to explore your inner resources, finding what really matters to your soul.

We begin our days with morning meditation at 7:30. Then a lovely breakfast buffe before class that starts 9:15 with shamanic teachings of the day. Break for lunch and for coffee/tea in in the afternoon. We end class before dinner at 18:30 so you have a free evening to relax and enjoy Hotel Beau-Site and its beautiful surroundings.

I look forward to meeting you and share this visionary weekend together.

With Love

Aiyana
