

## Shaman Vision Class June 6-9<sup>th</sup> in the Swiss Alps

The Shaman dances between worlds of energy and matter since all elements of life have a spiritual aspect and a material one. In this conscious dance all manner of miracles and manifestations are possible.

Welcome to learn the great skills and tools of the visionary! What do you wish to create now? What would you like more of? What is important to your soul?

Through shamanic teachings, ceremonies, and meditations you heal and develop your visionary eyes to consciously dream the world.

## Words from your Teacher

I have a great dream and a soul mission to contribute to a more conscious and peaceful world, a world where our spiritual and physical dimension go hand in hand and in balance with the wisdom of nature.

That's why I work with spiritual development and education in shamanic energy medicine that I know makes an amazing difference personally and globally.

I welcome you to this beautiful weekend in the topic of Shaman Vision. What I love about this class is that it gives practical tips on how to work in energy with creative visualization and knowledge on how to bring visions into manifestation. Teachings you can continue to use for your dreams of life!

As important as your visionary skills, is your loving roots and divine purpose on Mother Earth. Again, welcome to shamanic teachings and ceremonies to uplift you soul and explore your inner resources.

I look forward to meeting you and share this visionary weekend together.

With Love

Aiyana
